

ICMEEWC – INVITATION TO AGM AND TALK

Dear Member

You are cordially invited to join us at the AGM of the Western Cape Branch of ICMEESA.

Enrico Anelli will be addressing us about a topic that is making inroads into the water handling industry.

Title will be “**Electrically Activated Water**”, where soft potable water and salt is processed by a compact machine to produce 2 natural non-toxic beneficial products namely Anolyte, which has disinfecting and sanitising properties (i.e. in Food processing, chicken farming, hospitals, hotels and many more) and Catholyte which has degreasing and scouring properties and is used in Plastic recycling wash plants, cleaning and CIP applications, etc.

The meeting will be opened with the election of the committee for 2015.

Currently committee consists of Chris Schnehage, Enrico Anelli and Justin Sparks.

We desperately need **new blood** on the committee – so please come to the meeting and agree to stand for election to the committee.

It is not an onerous task at all, in fact you score CPD points being on an active committee!

Date: Wednesday 18 March 2015.

Time: 17h30 for 18h00.

Venue: College of Cape Town, Thornton Campus, Cedar Road, Thornton.

RSVP: by return email or to chris@icmeewc.co.za before end of working day Monday 16 March 2015 or simply reply to this email invitation for catering purposes.

Chris Schnehage
